

MEET THE BEACH

2021 BEACH SCHEDULE

FREE BEACH EXPLORATION PROGRAM

Wade through the mud and turn over rocks to discover estuary creatures like crabs, worms, sea stars and clams during summer low tides on local beaches! The Estuarium's trained volunteer Beach Naturalists will help you explore and identify the Salish Sea's unique intertidal life during our annual Meet the Beach program. Check out our Beach Schedule to learn where you can find Beach Naturalists this summer.
